

~~SECRET~~

10 JUN 1978

MEMORANDUM FOR: Director of Central Intelligence

FROM:

Deputy to the DCI for Resource Management

SUBJECT:

Intelligence Support to Military
Tactical Units

25X1

1. ☐ Action Requested: None; for information only.

2. ☐ Background:

a. ☐ The OSD Tactical Support Plan, which is now being developed in response to a conclusion of the National/Tactical Interface Report, has reached its first milestone. OSD's draft outline (attached) is now being circulated for comment.

a. ☐ The NSA, NRO and Military Services individual plans are being developed concurrently to be used as an input into the OSD master plan. Initial difficulties within OSD are being encountered in ensuring compatibility of format and timing.

c. ☐ Internally within the DCI Staff, a Working Group with CT (COMIREX, SIGINT Committee, OCE) and RMS (OPP, OPEI, OCIS, OPBD) representatives has been formed to assist our participation. NI will be invited to participate when the scope of their involvement is better understood.

d. ☐ To anchor the further participation of the DCI Staff in the preparation of the DoD plan, as well as to help guide the NFIP program/budget process, the RMS will produce a Tactical Support Plan of its own, with a target date of September 1978.
